Introduction :-

Jean Arasanayagam (1931 - 2019) is a Sri Lankan poet & fiction writer. Born as Jean Solomons in a Dutch Burgher family, Jean married a Jaffna Tamil which led her to multiple heritages of her identity. She has written profusely in English basically on the theme of ethnic & religious turmoil in Sri Lanka. She was a witness to the colonial and postcolonial sociopolitical changes that affect the dynamics of ethnic, gender & class relations in Sri Lanka. She was a victim of ethnic and political violence of 1983.

Along with search for identity, death is a recurring theme in her poetry. She has written nearly fifty books. She died on 30 July 2019.

The present poem clearly points out the futility of war. The detailed description of the battered bodies of two soldiers is representative of the condition of a million soldiers. All this signifies the brutalities and destruction caused by war. The bizarre description of destruction and nauseating bloodshed loudly convey her position on war.

Observation :-

In this poem depict the situation in war. The narrator said the two soldiers are dead & his body are the dangerous condition.

The soldiers is the front line of coun security in country & soldiers life is risky but he don't think about our life but they given to most importance of countries our nation. The soldiers are given to her life our nation for security.

The narrator says the two soldiers in bronze lying flat on a battlefield, anywhere dismembered trunks & heads, severed membranes, nerves. Are tangled threads wrapped in blood. Freezing in ice or clotted with mud.

The soldiers are going to war & any operations. that any casualties the soldier face them bravely.

war is the not kind of the situation but they faced them when a soldier is confronted with a war situation the patriotism, the love that in is his mind the nation is ready to sacrifice for it. but war is a no solution of problems. It depicts the condition of the bodies of soldiers killed in war. The soldier narrator says the soldiers two dead soldiers in bronze they are lying flat flat on a battlefield, anywhere. The soldiers trunks & heads are dismembered. membranes, nerves are Severed The tangled threads wrapped in blood & freezing in ice or clotted with mud.

Analysis:-

Soldier dismembered to cut or tear a body pieces, cut, broken.

They have no eyes, They have no tongues, Sightless and blind and speechless.

In a war they have no eyes, no tongues the soldier see the all situation faced a border. They have a strong for his situations. The war time it describes the pain inflicted on a soldier by his eye, tongue in battlefield. Soldier is sightless & blind, speechless. in war time injured.

shreds of rags. flutter in the miserable wind to cover corpses. in a war time field in battle soldiers are faced many problems, difficulties. Even then they survive the problems & difficulties they faced it properly. In it their rags fall to pieces, fluttering in the miserable wind to cover the corpses. being a soldier is not easy, in fact, it is one of the most challenging things to do. Their lives are full of hardship & challenges which no ordinary person can survive, firstly, they spend a great deal of time away from their loved ones. It disturbs them emotionally and they do not even get any holidays.

The soldier is a term used to describe someone who has enlisted in military. soldiers typically have a rank. soldiers are one of the greatest assets of any country. They are the guardians of the nations and protect its citizens at all costs. Moreover, they are very selfless lot who put the interest of the country above

their personal interest.

The cloth, the flesh, the skin are of one colour and one texture.

Narrator says cloth, flesh, skin is a one colour & one texture. a soldier job is one of the toughest thing to do in the world. They are supposed to fulfill challenging duties and possess exceptional qualities to become a great soldier. However, their lives are very tough. Nonetheless, they always fulfill their duties despite the hardship.

A country sleeps peacefully as the soldier performs its duties. The first and foremost duty of a soldier is to serve their country without any selfish motive. A person usually joins the army out of love for his motherland and to protect it. Even though they know they will have to face numerous problems. they still do so for their country.

outflung and still the cracked bone of the broken arm, Its crooked wing, unpinioned, unweaponed, the slack fingers of those useless hands.

featherless, like a birds wing whose feathers are destroyed.

Soldiers a cracked bone is a injured with a broken arm furthermore, a soldier safeguards the honour of his country. they do not step back in the face of adversaries instead they give there best. It does not matter if they have to give their life for the country they are willing to do so happily. Besides, soldiers

Soldiers also have to be alert at all times. He is never off duty, whether he is sleeping or on the battlefield, he stays vigilant throughout.

Two dead soldiers are a whole battlefield two faces, a million.

Most importantly, a soldier's duty is to maintain the peace and harmony of the country. He takes on the responsibility of ensuring a safe environment for all. In addition to guarding the border, they are also always there in case of emergencies. They learn how to handle every situation carefully whether it is a terrorist attack or natural calamity. In other words, the local authorities need them to bring the situation under control.

Result :-

In my opinion soldier faced a many challenges. Being a soldier is not easy, in fact. it is one of the most challenging things to do. Their lives are full of hardship and challenges which no ordinary person can survive. firstly, they spend a great deal of time away from their loved ones. It disturbs them emotionally and they do not given get any holidays. Even in festivals they are busy safegaurding the nation.

Similarly, soldiers have to undergo rigorous training to become fit to fight battles. It becomes exhausting and physically challenging but they still go on. To make it worse they do not even get an adequate amount of supply to lead a normal life. Sometimes, the food rationing is low, the other times they get posted in remote areas without any signal. Subsequently they also have to make do in the harshet of weather conditions. It does not matter if it is schorching hot or chilling cold, they have to be out on the battlefield. Similarly, they do not even get enough bulletproof equipment. which will keep them safe. Thus we see what a challenging life our soldiers to lead to protect their country.

In this poem narrator detect the situation, many challenges are faced a very problem.

A soldier has many duties to perform. He has work to selflessly for the betterment of the country. They ensure that peace and harmony are maintained throughout the nation. Moreover, they also remain vigilant at all times and render help in case of emergency situations.

Soldier has to face a lot of challenges in their lives. They separate from their family and spend most of their time away from them further they undergo hard training to achieve success. Sometimes they don't even get enough supplies to make ends meet. Moreover, no matter the weather, they have to survive in rough situations.
